Article 9: Contents of the promotion program:

9.1 Techcombank Rewards Account (Rewards Account)

Techcombank Rewards Account (Rewards Account): This is a reward point account (not a Current Account) that records the accumulated reward points of customers according to Techcombank's promotional programs issued from time to time. Rewards Account is integrated and can be used by customers on the Techcombank Mobile application. Each customer will have only one Techcombank Rewards points account based on the customer identification code at Techcombank.

9.2 Techcombank Rewards account status:

It is the status of the Reward account recorded on the Techcombank system including: activated, hibernated, suspended, locked and deactivated.

9.2.1 Active Account Status:

- At the time of issuance of the Rewards Account, the customer's Rewards Account will have an "Active" status.
- Customers are entitled to accumulate and use points in accordance with the contents specified in Sections 9.3 and 9.4 of Article 9 of these Regulations.

9.2.2 Dormant Account Status:

- Conversion conditions: The account will be updated to the "Dormant" state if there is no valid point accumulation or reward point redemption transaction within 6 consecutive months.
- Benefits: customers are entitled to accumulate and use points in accordance with the contents specified in Sections 9.3 and 9.4 of Article 9 of these Regulations.

9.2.3 Suspended Account Status:

- Conversion conditions: The account will be updated to the "suspended" status if the customer is on the Watchlist on the database system and/or on other systems of Techcombank.
- Benefits: customers can continue to earn points but cannot use the accumulated points, and customers cannot access Techcombank Rewards

9.2.4 Locked Account Status:

- Conversion conditions: The account will be updated to the "locked" status if Techcombank receives a request to stop participating in the promotion from the customer.

- Explanation: customers cannot access Techcombank Rewards, and at the same time do not receive reward points and cannot use the accumulated points.

9.2.5 Disabled Account Status:

- Conversion conditions: The account will be updated to the "Disabled" status if the customer does not fully satisfy the conditions for participants specified in Article 07 of these Rules or if the customer's account is in the "locked" state for 6 consecutive months.
- Explanation: customers cannot access Techcombank Rewards on the Techcombank Mobile application, cannot accumulate and use reward points.

*Notes:

The account will be automatically reactivated in the following cases:

- ✓ If the account is dormant and there is a transaction to earn points or use any reward points
- ✓ The account is suspended if the Customer is no longer on the Watchlist on the database system and/or on other systems of Techcombank.
- ✓ The account is deactivated if the customer fully satisfies the conditions on participants specified in Article 07 of this Regulation.

A locked account can only be activated when the Customer actively requests to be unlocked to re-participate in the Customer's promotion.

9.3 Regulations on accumulating points:

9.3.1 How to earn reward points

1. Basic reward point program:

Make sure not to exceed the maximum budget for the duration of the program*
- *At the time of point accumulation, Techcombank will reward points according to the priority level ranked from high to low as follows:*
 - (1) *Customers with a higher total spending on payment cards and credit cards at the reward period*
 - Customers with a higher average automatic profitability balance at the reward period*
 - (2) *Customers register for the program earlier*
 - (3) *Techcombank will be the legal entity making the final decision*
- *Exclusion of transactions at merchants with a goods and services category code (MCC) in accordance with Article 9.3.2 of these Rules.*

9.3.2 Principles for accruing regular points (U-points) and Cashback points (collectively, "reward points")

- 1 reward point is equivalent to 1 VND
- The value of promotional gifts will be determined according to the value of Vietnamese dong. International payments will be converted according to Techcombank's exchange rate from time to time when considering the valid value to enjoy the promotion and the appropriate promotional level.
- A valid card transaction is a successful transaction within the time limit corresponding to the conditions for enjoying the promotion specified in section 9.3.1 mentioned on the primary card and supplementary card. All eligible spending transactions of primary cardholders will be credited with Techcombank Reward points for primary cardholders, and eligible spending transactions of supplementary cardholders will be credited with Techcombank Reward points for supplementary cardholders. The card must be credited in the Active status at the time of point repayment
- The balance of the Customer's reward points includes the total points from all products used by the Customer and additional reward points.
- The number of cashback points that are accumulated applies the principle of rounding down by unit rows, for example:
 - Customers who spend 119,500.75 VND via credit card will receive 11,950 points.
- The spending field is determined based on the Merchant Category Code (MCC) data field sent by the card organization to Techcombank based on the category code that the merchant registers with the payment bank. The determination of transactions belonging to which sectors will be based on the goods and services category code (MCC) regulated by TCB from time to time.

9.3.3 Successful payment transactions include:

- Payment transactions are recorded as successful by Techcombank's system; Techcombank's system can record and process on working days.
- ✓ The Client can refer to the Transaction on the Account Statement. The information related to the Customer's transactions provided by Techcombank through the Investment Banking Service may not always be fully updated because there are transactions that have not been processed or adjusted by Techcombank when there are errors or mistakes. Therefore, the Client accepts that the information about the Client's transactions and account balances notified via the Service is not the final accurate information at the time of notification.

- ✓ Not part of the "Invalid Payment Transaction" in section 9.3.4
- The payment transaction is not recorded by the Techcombank system but the transaction is settled by the payment card organization with Techcombank and Techcombank has successfully debited the cardholder's account;
- The payment transaction is successfully recorded by the Techcombank system but the amount is less than the amount of the payment card organization with Techcombank and Techcombank has successfully accounted for additional debit of the cardholder's account.

9.3.4 **Invalid payment transactions are transactions that:**

- Returned, refunded, disputed or invalid payment transactions, or forged, or taxes on goods and services;
- Transfer/payment transactions between accounts/cards of the Customer.
- Payment transactions that are returned, refunded, disputed or invalid, or forged, automatically canceled/reversed due to: system error, or canceled by the Customer, or a 3rd party.
